## About

I am a computer science student and cybersecurity apprentice who is intent on creating advancements in technology, as well as advancements in the security of that technology. Currently studying topics in cybersecurity such as security analysis, security engineering, penetration testing, exploit development, and secure coding. Also studying computer science topics such as Data Structures, algorithms, computer organization, software engineering, application development, and web development.

---

## Education

**Texas A&M University, College Station, TX**

*EXPECTED GRADUATION DATE: SPRING 2024*

**Major:** Computer Science and Engineering; **GPA: 3.527**

**Emphasis:** Cyber Security

**Organizations:** Texas A&M Cybersecurity Club and Texas A&M Defense Cyber Leader Development Program (DCLDP)

---

## Work And Qualifications

*Oct 2021 - Present*

**SOC Intern**, Netsync Network Solutions

- Working as a SOC analyst as well as working with the offensive security team. Performing SOC investigations, doing simulated penetration testing, programming report automation, and legitimate internal penetration tests.
- Successfully Implemented report automation for the Offensive Security team. Dynamically creates client readable docx

documents from markdown documents that support's markdown syntax. Functions via a desktop application GUI.

*Oct 2021 - Present*

**Cybersecurity Apprentice, Student Technician, A&M University**

- Cybersecurity apprentice learning security and computing theory while getting hands-on cybersecurity experience
- Training to earn industry certifications and relevant skills
- Skills such as pentesting, computer forensics, computer networks, packet and SIEM analysis
- Skills are practiced with specific tool training such as Splunk, CrowdStrike, and ExtraHop

*May 2021 - August 2021*

**Service Desk Technician, Logicalis US, Remote**

- Served as tier one support for the Exact Sciences service desk. Supporting hardware and software issues.

---

## Certifications

**CompTIA Security+**

- CompTIA Security+ is a global certification that validates the baseline skills necessary to perform core security functions and pursue an IT security career.

**CompTIA Network+**

- CompTIA Network+ helps develop a career in IT infrastructure covering troubleshooting, configuring, and managing networks

---

## Interests

Coding, Computers, IOT, Cyber Security, Robotics, 3D Printing, Physical Fitness, Aquatic Ecology and Science Fiction Reading

---

## Skills

Computer Networks, Cybersecurity, Python Automation
